3. RESPONSIVE 9:16 MOBILE & POPUP MODAL ARCHITECTURE

- Mobile Collapsible Toolbar: .topbar uses flex: 0 0 auto; tools collapse into [Toolbar Menu] popup.
- Notification Popup Standard: Colleague Status, Team Decisions, HR Roster, and Tasks open in modals.
- Adaptive Speech Bubbles: Auto-scales width (68px - 188px) with word-wrap to prevent sprite overlap.
- Strict Avatar Clipping: All Emoji, Pixel Canvas, and uploaded images are clipped inside .avatar-clip-box.

4. BRAND ASSET, FONT & GITHUB PAGES LICENSE DECLARATION (APPROVED)

1) All color tokens, isometric room vector props, and pixel mascot sprites (Momo & DongDong) are original first-party assets licensed for public deployment on https://szhu72.github.io/ai-office/.
2) Typography uses system-safe & open stacks (Trebuchet MS, Noto Sans TC, Consolas) with zero **proprietary font infringement risk. QA Status: PASSED & SIGNED BY SUPERVISOR XIAOCHU.**
